'In the Making'

Stroud International Textiles in partnership with the Museum in the Park, Stratford Park, Stroud GL5 4AF

Linking the past to the present and the future

Stroud International Textiles will be unveiling an exciting new project on January 5th 2010 at the Museum in the Park, Stratford Park, Stroud GL5 4AF

'In the Making' will showcase contemporary designer craft from leading nationally acclaimed craft makers in a Museum setting.

One discipline will be exhibited at a time and reflect the innovation and high quality of British craftsmanship and will cover the broad range of disciplines that make up contemporary crafts today.

The work selected by Stroud International Textiles will be from established makers as well as new emerging makers.

We hope to offer opportunities to visitors of all ages who may not see leading contemporary work and to encourage debate and fresh observation for crafts and design.

Alongside this there will be talks and opportunities for people of all ages to engage with the work and be drawn to a greater understanding of contemporary crafts today.

Stroud International Textiles in partnership with the Museum in the Park's Learning Officer will be organising school visits and encouraging young people to engage with contemporary craft, and to take that learning and understanding back into the classroom.

There will be teaching notes and information on each discipline available for young people and visitors.
